

Connor Solutions Limited is a provider of Electronic Manufacturing Services (EMS) to leading original equipment manufacturers (OEM) across various markets.

Connor Solutions Ltd is committed to the security of information and will continually set, communicate and review objectives which will sustain and improve the Information Security Management System inline with our business strategy and to fully comply with ISO27001:2022 as well as any specific customer requirement.

The key objective is to ensure Confidentiality, Integrity and Availability of information processed in the day-to-day running of the business. Legal, Regulatory and Contractual requirements will be achieved by identification and management of risks.
